

ROBIN® 300E Beam

The ROBIN® 300E Beam uses a Philips MSD Gold 300/2 MiniFastFit lamp and has a beam angle of 1.5 - 6.5 degrees, complete with dichroic glass reflector for maximising the light output.

As with all Robe fixtures, there is a host of creative features. In addition to full colour mixing, there is a colour wheel with 7 replaceable "SLOT&LOCK" dichroic filters, plus static and rotating gobo wheels.

The ROBIN® 300E Beam has a variable frost effect for the smooth transition from a beam light to a regular wash light. Full dimming a variable strobe effect and a pan and tilt of 540/260 degrees are also onboard.

The ROBIN® 300E Beam is robustly engineered to Robe's exacting specifications and reliability standards.
